A: Try running the executable (on windows you can do it via explorer): "winrar" -e "*.exe" This should open a file manager window and you can browse into the directory. A: Downloads can be very big. I have seen cases where a game has been around for years and the installer is just the bare bones. They then have an update if they want to make the game better and when this happens they usually just re-release the game. But as people have already tried to install it in the past it has a 'patch' file. So what you do is get the patch file and that gets installed (unzipping on a windows computer could be a pain) and if it installs then you just copy your latest game file. Once you have done that then you can just go back to your game and test it. Hope this helps

UNPUBLISHED UNITED STATES COURT OF APPEALS FOR THE FOURTH CIRCUIT No. 05-7532 ROBERT A. MOORE, Plaintiff - Appellant, versus ROY COOPER, Warden, Bland Correctional Center, Defendant - Appellee. Appeal from the United States District Court for the Western District of Virginia, at Roanoke. Samuel G. Wilson, District Judge.
